

Semester 1
March – July 2023

STAR Courses

NMIT | Te Pūkenga offers a range of short, hands-on courses students can complete during school terms and holidays. Some courses offer Level 1 and Level 2 NCEA credits.

Course	Delivery Dates	Level	Credits	Description
Bar Service, Mocktails	22–23 March	L1	2	Learn real-world hospitality and bar-service skills in the Rata Room bar. Over two days, you will learn to prepare and serve various non-alcoholic drinks, mocktail recipes, and ingredients.
Introduction to Engineering Welding	3–4 April	L1	–	Over two days, you will be introduced to aspects of mig welding in our fully-equipped, industry-standard welding and fabrication workshops.
Barista Coffee	18–20 April	L2	4	Learn basic barista skills, preparing espresso beverages that may help to secure that part-time job in a café while you're studying at school.
Café Table Service	2–4 May	L2	3	Learn real-world hospitality skills by participating in the on-campus cafe services at the Rata Room and focus on customer dining service and equipment.
Barista Coffee	30 May–1 June	L2	4	Learn basic barista skills, preparing espresso beverages that may help to secure that part-time job in a café while you're studying at school.
Patisserie Cooking and Baking	6–8 June	L2	2	Learn baking methods and whip up a range of bread, cakes and pastries in the commercial training kitchen for the Rata Room café.
Joinery, Intermediate	13–14 June	L1	–	Get tooled up in the joinery workshop and experience creating a project of your own using hand and power tools.
Hairdressing Salon Skills	11–13 July	L2	2	Spend two days in the on-campus salon, Head Zone, be introduced to the tools and trade products and learn how to shampoo hair and create simple styles for long hair. You will also learn about the industry sustainability concepts by examining sources of waste, product disposal, recycling, and strategies to reduce a salon's carbon footprint.
Beauty Fashion Trends (Marlborough)	11–13 July	L2	3	Explore fashion trends and influences and learn the technical skills used in beauty therapy clinics by observing practical demonstrations. You will then learn how to care for your skin and provide beauty services for make-up design and facial and nail services.
