

## **BN Immunisation Record**

Please request a copy of your Immunisation Record from the Practice Nurse or GP at your medical centre and send it to [enrolments@nmit.ac.nz](mailto:enrolments@nmit.ac.nz) or Enrolments, NMIT, Private Bag 19, Nelson 7042.

If you are accepted on to the Bachelor of Nursing programme, we may ask you to undergo blood tests for a list of diseases in order to see what your immune status is for each disease. Medlab will send these results to our Clinical Coordinator to review.

Once we have the results from your blood tests, we may recommend that you get vaccinations for the diseases you show no immunity to. You can choose not to be vaccinated, however, this may limit the clinical placements we can place you in when the time comes.
