

Computing & IT

Welcome to the future - from Oculus Rift - the world-leading virtual reality headset, through to 3D printers and Raspberry Pi's, the future has already arrived at NMIT.

Our computing and IT facilities include

- 3D printer
- Oculus Rift, the world-leading virtual reality headset, along with Microsoft Kinect (adapted to work with computers controlling robotics and 3D scanners)
- Free Wi-Fi
- Over 500 modern, fast PC's with 20 percent dedicated to open access use
- Specialist technology suites
- Free, unlimited internet access for students and access to personal web-based services world-wide
- A friendly, knowledgeable IT Service Desk to assist you with most things IT.
- A simulated office, modern classrooms and lecture theatres
