Share your thoughts and suggestions to help shape NMIT.

The views of our students, those who work with us, teachers, parents and whānau are important to us. To help us make better decisions and understand what truly matters, NMIT frequently engages with and asks for feedback on a variety of issues.

We're here to listen and we have many ways you can have your say. Contact us directly as a one-off or choose one of the following channels to tell us what really matters.
