

Take a field trip

Our field trips let you find out more about a particular industry, the types of careers you could have and what you need to study to get there.

Field trips are open to high school students and are run between March and August each year.

By coming along on one in the future you will discover the ins and outs of a specific industry and the career opportunities it offers.

Field trips are often run which cover these sectors:

- Aquaculture
- Viticulture
- Aviation
- Business
- Civil Engineering

Past field trips have visited Pic's Peanut Butter, high street banks, the Marlborough Sounds and RNZAF Woodbourne.

Talk to your school's careers adviser about joining our next field trip.
