

NMIT's Vocational Studies programmes are designed to support students who want to gain new employment skills.

NMIT's Vocational Studies programmes are designed to support students who wish to pursue meaningful employment, yet require additional skills to achieve their goals. Vocational Studies includes our Supported Training programme, which is inclusive and based on the philosophy that anyone has a right to learn and to reach their potential by progressing their knowledge, skills and abilities.

NMIT offers the Certificate in Vocational Skills for students with learning disabilities who want to develop independence in the community. Learning is based on a progression model where as a student you develop knowledge in a variety of subject areas.
